

# Vaccinations during COVID-19

Protect yourself, protect your child, protect others

It is still very important to come for your routine vaccines when invited.

Vaccination clinics take every precaution to prevent the spread of COVID-19. They will be arranged so that:

- people can maintain social distance
- staff will be wearing PPE

The only reasons for not attending are if you or your child is unwell or if you are isolating because you have been in contact with someone who has tested positive for COVID-19.\*
