Standard Dressings
To be supplied in sealed packets as received from the manufacturer or wholesaler.

No 16 Eye Pad with Bandage BPC, sterile – see Eye Products – Eye Pad
Sterile Dressing Packs
These packs contain a selection of sterile dressings required in special nursing procedures (usually for post-operative re-dressing of wounds) when performed in the home. A pack is to be used for each sterile dressing operation. Prescribers have been advised to order this dressing only for an individual patient for whom such a sterile dressing operation is essential and to restrict their orders to the number of packs considered to be required for that patient.
The exact number of packs ordered by the prescriber is to be dispensed.

Drug Tariff Specification Sterile Dressing Packs
Sterile Dressing Pack (with Sterile field) No 1
(Specification 10)
Sterile Pack containing:
1 Gauze and Cotton Tissue Pad 8.5cm x 20cm
