

TEST TRACE PROTECT A STEP-BY-STEP GUIDE

Test ✓ Trace ✓ Protect ✓

1

SPOT THE SYMPTOMS

If you have a new persistent cough, fever or loss of or change in sense of taste and smell, you and everyone in your house should immediately self-isolate.

2

REQUEST A TEST NOW

Visit nidirect.gov.uk/coronavirus to book a test online. Call 119 if you cannot book a test online.

3

ISOLATE

Isolate for 10 days after symptoms appear, longer if fever continues (until at least 48 hours after your temperature returns to normal). Other people you live with should isolate for 14 days.

4

GET TESTED

Testing is carried out at drive through testing centres and you must arrive by car (not on foot, via public transport, by taxi or by any other means). Home tests are also available.

5

GET RESULTS

You should receive results within 72 hours. If you test negative for coronavirus you and your household can stop isolating.

6

PROVIDE DETAILS

If you test positive for coronavirus Public Health Agency (PHA) contact tracers will call you from the number 028 9536 8888. They will ask you who you have had contact with recently.

7

PHA INFORMS CONTACTS

If you have coronavirus, the PHA will contact the people you have had close contact with. Your name will not be shared unless you give permission. All data will be held securely.

8

CLOSE CONTACTS ASKED TO ISOLATE

Close contacts will be asked to isolate for 14 days from the last time they had contact with you.

9

HOUSEHOLD OF CLOSE CONTACTS

If the close contact has no symptoms, others in the household don't need to isolate. If the close contact develops symptoms, they should follow this guide starting at step 1.

When you leave home, stay safe and continue to follow public health advice.

- Wash your hands well and often and avoid touching your face.
- Keep your distance from others when outside the home.
- Cough or sneeze into your elbow or a tissue and dispose of the tissue in a bin.
- Wear a face covering in enclosed spaces like shops, healthcare settings and on public transport.
- Download the StopCOVID NI app to help support contact tracing.
